

Teacher Education Center Disclaimer

Items in the Teacher Education Collection (TEC) are selected and purchased to support the university education majors at Benner Library. The materials primarily support teacher education courses. The collection is made up of pre-K through Grade 8 materials with resources to help students prepare for their careers as teachers. There are materials known to have content that may be offensive for some readers. (These items can be identified with a yellow label inside near the date due slip.)

This collection also contains materials that are viewed as controversial to some readers as they represent differing viewpoints. We encourage you to bring our attention to any materials we may have missed. Parents are responsible for the content their children select.
