Find Spanish-language content

1. **Search** by keyword for the topic that you're seeking

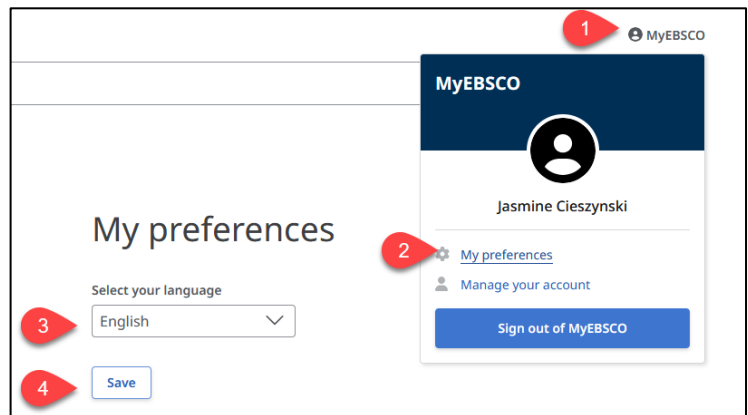

2. Click on “All filters”
3. Scroll to “Language” and choose “Spanish”
4. Should probably also limit to **full text**! (see yellow highlight for two ways to do it)
5. Could limit by **source type** (e.g. book chapters, magazines, scholarly). See purple.

Change database interface to Spanish

This will **change the labels (like “save” and “Search”)** but doesn’t change the language of the article(s)/content.

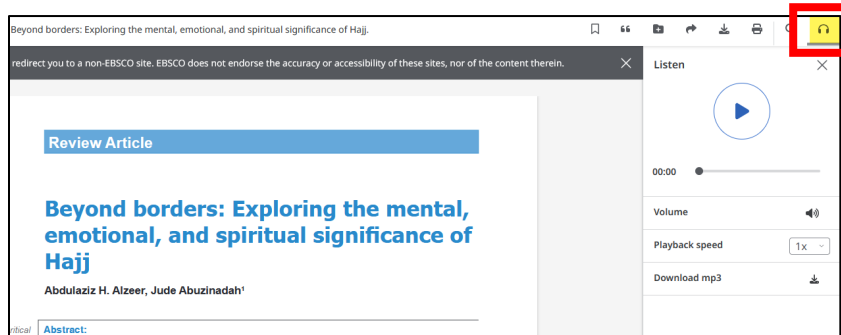

1. Click on MyEBSCO
2. Choose My preferences
3. Change language
4. Click Save button

Other EBSCO features

Listen to an article

From the .pdf, click on headphone icon.

Translate

From an .html article, use the translate button and choose desired language.

JSTOR (database)

Scholarly articles

1. Do a keyword search for the topic that you're seeking
2. Limit by language
3. Choose **Spanish; Castilian**
